

Harvest Batch ID = Name given to a "batch" or "harvest batch" which means a specifically identified quantity of dried flower or trim, leaves, and other cannabis plant matter that is uniform in strain or cultivar, harvested in whole, or in part (manicure), at the same time and if applicable, cultivated using the same pesticides and other agricultural chemicals.

Waste = plant matter that will not be sold, for any number of reasons.

Packages = must be used for transfers; by weight or count. The same UID may be applied to multiple containers that are a part of the same overall package.
